Dear UBS Recruiters,

I am writing to show my enthusiasm regarding the Junior Graphic Designer position at UBS. The moment I stumbled upon your job listing, I immediately sensed a profound resonance with the innovative and creative ethos of your business. I am confident in my potential to make a meaningful contribution to your dynamic team, as I am passionate about UI/UX design and trying to improve every day with my skills.

Over the past year, I have had the privilege of working as a freelance UI/UX designer, an experience that has equipped me with invaluable insights into this field. This journey has been characterized by immersive research and the drive to craft functional designs that enhance the user's experience when it comes to the competitive industry of New York City. I worked on creating a website for a restaurant in the heart of Chinatown to help boost the business's marketability by having a digital footprint for customers wanting to know more.

One of the aspects of my work that I hold in high regard is collaboration. I firmly believe that exceptional design is the result of collective effort. From my current experience as a UI/UX Designer, I have honed my communication skills while collaborating with software developers to ensure that designs are not only aesthetically pleasing but also fully functional. I place great importance on ensuring that everyone involved comprehends the overarching vision, and I am always open to feedback and suggestions to further refine the design. I possess proficiency in a range of applications, including Figma, Adobe Photoshop, and Adobe Illustrator. Additionally, I have a sound knowledge of various programming languages such as C++, Java, C#, HTML, CSS, and JS. I maintain an unwavering enthusiasm for expanding my skill set, constantly seeking growth opportunities.

I am particularly drawn to the Junior Graphic Designer Role and its culture of perpetual learning and development. I am a firm believer in the concept of lifelong learning and am eager to embrace the opportunities that align with my commitment to professional growth. I am hopeful to learn from the senior designer and will try to absorb as knowledge as possible. I extend my heartfelt gratitude for considering my application. I eagerly anticipate the opportunity to discuss how my experiences and competencies align with the requisites and objectives of UBS. Please go through my portfolio website to see my past projects and more about me.

Warm Regards,

Evan Tran
